### ABOUT THE CONFERENCE:

Prime objective of National Conference on Recent Trends in Science and Technology (NCRST'25) is to provide a vibrant platform for engineering students, researchers, academicians, and industry professionals to showcase the innovations, achievements, and contributions realized through final-year BTech and MTech projects, as well as related research endeavors. This event aims to foster an ecosystem that bridges academia and industry while inspiring collaborative solutions to pressing technological and societal challenges. The conference is targeting researchers, practitioners, and professionals from the industry and academia to share their research trends, findings, and results in 7 different fields: Computer Science Engineering, Electronics and Communications Engineering, Electrical Engineering, Mechanical Engineering, Civil Engineering, Information Technology and Applied Science. The conference features a dynamic program including academic, technical, and industrial related keynote speakers in hybrid mode.

We have also designed a special session named Industry Institute Interaction (IIS) to meet and share the experience of some renowned dignitaries from Industry with you all at this platform here live in JGEC.
